

SKIP INFLATABLES

PLEASURE OF BOATING

The Ultralite Series is designed with weight in mind and is easy to launch and retrieve with one person. The rigid aluminum hull allows the boat to plane earlier and at lower speeds than soft bottom tenders. An increase in performance, fuel efficiency and the ability to plane with and increased payload are also very handy benefits of an aluminum rigid hull. Our boats are top quality and packed with features.

STANDARD FEATURES :

- ▶ ORCA® 828 Hypalon grade fabric tubes
- ▶ Oversized soft handles
- ▶ Built-in towing eyes and lifting points
- ▶ Large diameter tubes
- ▶ High tensile chromated & power coated
- ▶ Pressure relief valves
- ▶ Waterproof repair kit
- ▶ High strength reinforced aluminium Hull
- ▶ Full floor non-skid anti-slip deck
- ▶ Full length rubber keel guard
- ▶ Polished Aluminium Transom plate
- ▶ High velocity foot pump
- ▶ Push 2-stage inflation valves
- ▶ Tight-fit oars holder design

SPECIFICATION :

Length Overall : 3m
Dry Weight: 51kg
Beam Width: 1.6m
Deadrise: 15°

Max Payload: 530kg
Max HP: 15 HP
Max Persons: 4

UL 300 EXPLORE & DISCOVER ULTRA LIGHT SERIES

SUIT YOUR NEEDS & EXCEED EVERY EXPECTATION

ORCA HYPALON TUBE

The tubes are made with 5-ply Chlorosulfonated Polyethylene (CSM) ORCA® HYPALON 828 manufactured by Pennel & Flipo™. This fabric is used by professional and military grade boats and is so superior we guarantee it with a ten (10) year warranty.

ALUMINIUM HULL

The Ultralite Series are made with 3mm marine grade aluminium hulls which have high resale value, easy to maintain or repair and can be retubed at anytime. This series has also been designed with a 15° deadrise giving good boat speed and load carrying capacity, early planning, reduced horsepower and fuel consumption.

OUR FULL ASSURANCE

SKIP is an old Norwegian word meaning "Little Ship", our tenders are overbuilt, tough, reliable and most importantly sea-kindly. Each Skip Inflatable boat is designed and built with the best material available. The construction methods used in military and commercial vessels have been used to produce the very finest recreational tenders available. Our RIBs are designed and built for extended cruises, live-aboard and high use applications. All SKIP boats have a 10 year fabric warranty and a 5 year warranty on all Aluminium hulls. .

UL 300

TECHNICAL SPECIFICATION

Overall length: 3 m
